

Capacity Application at the Pori LNG Terminal

UNOFFICIAL TRANSLATION FROM THE FINNISH ORIGINAL TERMINAL RULES VERSION. IN CASE OF DISCREPANCIES BETWEEN THE ENGLISH AND THE FINNISH VERSIONS, THE FINNISH VERSION SHALL PREVAIL.

With its notice of October 27, 2016 (No. 1966/534/2016), the Energy Authority has designated Skangas Oy as an operator of storage equipment and liquified natural gas processing equipment in the Pori LNG terminal as required by Section 8 of Chapter 6 of the Natural Gas Market Act (2013/589). With its decision of March 15, 2018, the Energy Authority has confirmed the Pori LNG Terminal Rules that are available on the Skangas website (www.skangas.com).

Capacity reservation procedure and timetable:

April 4, 2018	Opening of the capacity allocation procedure and request for capacity applications
30 weekdays	Deadline for submitting application
10 weekdays	Evaluation of the capacity applications and notifications sent to customers with deficient applications
10 weekdays	Amendments to deficient applications
5 weekdays	Deadline and publication of results

- 5 weekdays Signing of the capacity contracts and delivery of the projected consumption for 2018

- 5 weekdays Submitting the free remaining capacity to the market

Reserved capacity grants the user rights to use the terminal services during the reserved period. With this application, the applicant gives binding notice to the provider of the desire to reserve capacity (storage services) and other services at the Pori LNG terminal.

Company	Business ID
Address	Post code and mailing address
Contact person	Position
Phone no.	E-mail
